

# ACTIVE BIOFORCE DEFENDER™ GERMICIDAL UVC & OXIDATION UVV SYSTEM

TARGET POLLUTION PHASE:

## GERMS

INCLUDES:

**Viruses, Bacteria, Biological Growth**

CAN CAUSE:

Growth on Equipment Parts, Clogged Coils, Respiratory Infection, Bronchitis or Pneumonia, Sinusitis

TARGET POLLUTION PHASE:

## GASES

INCLUDES:

**Pet, Smoke, & Cooking Odors, Chemicals**

CAN CAUSE:

Corroded Coils, Increased Operation Cost, Headaches, Nausea & Dizziness, Lung Problems

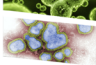

## GERMICIDAL UVC LAMPS AND UVV OXIDATION SYSTEM

**Our High-Output Germicidal Lamps & Oxidation system** installs directly into your central heating and cooling system's ductwork or plenum to utilize its air flow for whole-house germ, gas, and odor control. The high intensity UVC lamp disinfects the air by neutralizing airborne pathogens such as bacteria, viruses, and mold. In addition, it controls allergens that may cause allergic and asthmatic episodes. Our UVC lamps produce 330% more output than standard lamps, controlling surface growth AND inactivating airborne viruses and bacteria as they travel through ductwork, cleaning and purifying the air that's supplied to the home.

With the combination of germicidal UVC and UVV oxidation, one lamp controls bacteria, viruses and mold spores while the second adjustable lamp oxidizes gases and removes odors, such as noxious odors created by pets, smoke, solvents and carpets and other chemical gases and unpleasant odors that may linger in the home.

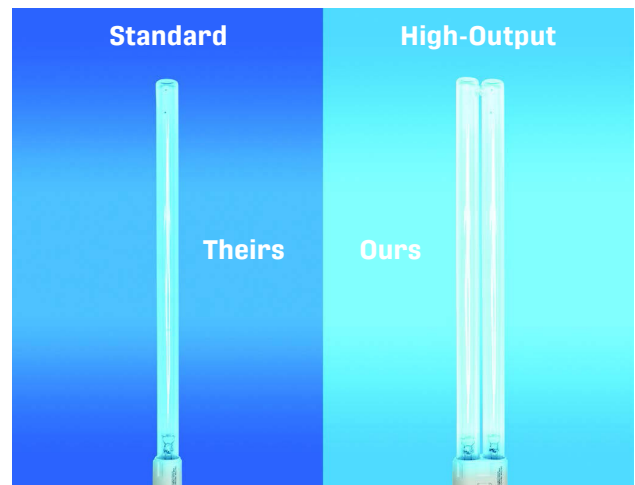

### PROBLEM

- Viruses 
- Bacteria 
- Flu & Cold Virus 
- Biological Growth 

### OFF GASSING FROM:

- Pesticides 
- Chemical Sprays 
- Cleaning Solvents 
- Building Material 
- Pet & Cooking odors 
- Carpets & Furniture 

### SOLUTION

*Lifetime warranty on electronics and 3-year warranty on lamps*

# ACTIVE BIOFORCE DEFENDER™ GERMICIDAL UVC & OXIDATION UVV SYSTEM

## Remote Mount UVC & UVV System

Part Number: **RM3-16-16-5** or **RM3-12-12-5**

### ADVANTAGES

### BENEFITS

Patented adjustable chamber with a 5" UVV lamp for one size fits all, chemical and odor control, up to a 5-ton HVAC system.	Oxidizes and controls the off-gassing of chemical gases from building materials, furniture, cleaning chemicals and sprays that may be an irritant and cause health concerns.
ETL and CARB (California Air Resources Board) listed and approved as ozone safe for use in-duct HVAC applications.	Safe, natural chemical oxidation and odor control 24/7. No dangerous by-products released into the air, Oxidation occurs in the ducts.
High output UVC lamps that are 330% times more powerful than standard UVC lamps on the market.	Disinfects your air 24 hours a day naturally, without using chemicals or sprays, which can help reduce asthma and allergy symptoms.
Dual UVC lamps are UL2998 Listed and Verified.	Germicidal UVC lamps to inactivate viruses, bacteria, and other germs 24 hours a day naturally without the use of chemicals or sprays.
Powerful enough for surface kill of micro-organisms AND airborne irradiation.	Inactivates airborne viruses and bacteria as they pass by the lamp, rendering them harmless and incapable of reproducing.
LED power and lamp monitors let you know that system is working properly.	Easy to maintain and monitor.
Professional licensed contractor installation.	Ensures proper installation to manufacturer's specifications and protects the Lifetime warranty.
Extended life 3-year lamps – three times the life of standard lamps.	Offers 27,000 hours of active UVC protection and performance throughout the lamp's life.
Heat sink housing design dissipates heat from the electronic ballast.	Protects the electronic components from overheating for improved reliability and extended lifetime ballast life.
